Magnus Ahmad

Full-stack product leader

magnus.ahmad@gmail.com · linkedin.com/in/magnus-ahmad · github.com/magnusahmad · Hong Kong · open to relocation

Repeat founder, full-stack product leader and operator with nine years across **agentic AI systems**, **ML supply chain at Amazon**, **verifiable compute** and **privacy-preserving identity**. Zero-to-one product strategy, go-to-market and technically ambitious products.

EXPERIENCE

AO1 — July 2026 — Present

Co-Founder · Forward Deployed Engineering — Hong Kong

- Automated **client due diligence for a Hong Kong corporate secretarial firm**, reducing 16 manual steps to 6 reviews and cutting staff time **78%, from 3.5 hours to 45 minutes per client**.
- Unified client records, reconstructed evidence from Outlook and automated document filing and bilingual follow-ups, with staff approval at key review steps.
- Built **Sentry, an on-prem AI control room** with site-specific vision models, proactive alerts and natural-language incident investigations.

Schelling Point Labs — Jun 2024 — Jun 2026

Parent company of Blocksense and Agent Harbor

> **Agent Harbor** — Jul 2025 — Jun 2026
>
> CEO & Co-founder · Reliable long-horizon autonomous work — Hong Kong
>
> - Co-founded after a strategic pivot from Blocksense. A coding-agent platform for long-horizon parallel agent work.
> - Shipped a **copy-on-write filesystem 10× faster than git worktrees**, with granular sandboxing, instant rollback and anti-halting recovery.
> - Accepted into the **Zerobase accelerator**; reached the **TOKEN2049 Nexus finals** from a field of 500+ teams.
>
> **Blocksense** — Jun 2024 — Jul 2025
>
> Founding Team · Product & Go-to-market — Berlin
>
> - Set zero-to-one product strategy for a distributed network of autonomous services, backed by a16z crypto.
> - Onboarded the company's **first customers and partners** off a self-built pipeline of 100+ projects.
> - Represented the company at TOKEN2049, Consensus Hong Kong, ETHDenver and Devcon.

Affinidi — Nov 2021 — Jun 2024

Special Projects Lead · Privacy-preserving identity — Berlin

- Led end-to-end delivery of **privacy-preserving identity MVPs used by more than a million people** worldwide.
- Owned greenfield bets spanning billing, analytics, Compliance-as-a-Service, and an edge-based private LLM assistant.
- Ran three experimental SWAT teams through customer discovery and go-to-market — thousands of qualified visits and 100+ letters of intent.

Amazon

Sep 2017 — Sep 2021

Product Manager — Retain & Supply Chain — London

Product Manager · Supply Chain — Jul 2020 — Sep 2021

Product Manager · Retail — Sep 2017 — Jul 2020

- Took a B2B supplier catalogue service **from idea to MVP** inside a Pan-European optimisation programme generating €30M+ annually.
- Led a supply-chain algorithm upgrade that recovered roughly **3M suppressed products** and unlocked **€20M+ in annualised revenue**.
- Ran EU-wide A/B tests over eight-digit weekly shipment volumes — **apparel delivery 30% faster** and warehouse coverage doubled in five markets.

EDUCATION

London Business School

Sep 2016 — Jul 2017

Masters in Management — London

- Consulted on strategic growth for **Change Please**, a UK social enterprise putting people out of homelessness through coffee.
- Chosen for the Outstanding Teamwork Award across the cohort.

University of Oxford

Oct 2011 — Jun 2015

BA Archaeology & Anthropology (2:1) · MSc Cognitive & Evolutionary Anthropology — Oxford

- **First-class dissertation** — ethnographic research on migrant identity and how technology is used abroad and at home.
- Experimental study of self-perceived social status and financial risk aversion.

International School of Manila

Aug 2009 — Jun 2011

International Baccalaureate — Manila
