Magnus Ahmad

Full-stack product leader

magnus.ahmad@gmail.com · linkedin.com/in/magnus-ahmad · github.com/magnusahmad · Hong Kong · open to relocation

Repeat founder, full-stack product leader and operator with nine years across **agentic AI systems**, **ML supply chain at Amazon**, **verifiable compute** and **privacy-preserving identity**. Zero-to-one product strategy, go-to-market and technically ambitious products, built across Manila, Oxford, London, Berlin and Hong Kong.

EXPERIENCE

Memento

Jun 2026 — Present

Founder · AI-powered adaptive learning platform — Hong Kong

- Built a science-backed AI learning platform that **maps mastery across a personal knowledge graph** and turns errors into adaptive practice.
- A browser companion captures texts from any page, branches into contextual chat, and builds a durable spaced-repetition library.

28 skill dimensions in the mastery graph · **Live** — in beta with educators

Intern

May 2026 — Present

Creator · Open-source AI teammate — Hong Kong

- A **self-onboarding teammate** that researches a business, connects to its tools and builds a living company knowledge base.
- One terminal flow discovers only the services a company actually uses, authenticates securely, then hands off to Telegram.
- The specialised profile benchmarked **4× faster** than vanilla Hermes with **zero approval interruptions** versus 37.

~5 min from install to a context-aware teammate · **4×** faster task completion

Agent Harbor

Jul 2025 — Jun 2026

CEO & Co-founder · Reliable long-horizon autonomous work — Hong Kong

- Co-founded after a strategic pivot from Blocksense — a coding-agent platform for **reliable, long-horizon autonomous work**.
- Shipped a **copy-on-write filesystem 10× faster than git worktrees**, with granular sandboxing, instant rollback and anti-halting recovery.
- Accepted into the **Zerobase accelerator**; reached the **TOKEN2049 Nexus finals** from a field of 500+ teams.

10× faster than git worktrees · **4** agent runtimes orchestrated locally

Blocksense

Jun 2024 — Jul 2025

Founding Team · Product & Go-to-market — Berlin

- Set **zero-to-one product strategy** for a distributed network for verifiable data and computation, backed by **a16z crypto**.
- Onboarded the company's **first customers and partners** off a self-built pipeline of 100+ projects.
- Represented the company at TOKEN2049, Consensus Hong Kong, ETHDenver and Devcon.

70+ partner networks · **80K** community · **$3M** grants won

Affinidi

Nov 2021 — Jun 2024

Special Projects Lead · Privacy-preserving identity

Berlin

- Led end-to-end delivery of **privacy-preserving identity MVPs used by more than a million people** worldwide.
- Owned greenfield bets spanning billing, analytics, Compliance-as-a-Service, and an edge-based private LLM assistant.
- Ran three experimental SWAT teams through customer discovery and go-to-market — thousands of qualified visits and 100+ letters of intent.

1M+ people reached · **100+** letters of intent · **3** SWAT teams run end to end

Amazon

Sep 2017 — Sep 2021

Product Manager — Retail, then Supply Chain

London

Product Manager · Supply Chain — Jul 2020 — Sep 2021

Product Manager · Retail — Sep 2017 — Jul 2020

- Took a B2B supplier catalogue service **from idea to MVP** inside a Pan-European optimisation programme generating €30M+ annually.
- Led a supply-chain algorithm upgrade that recovered roughly **3M suppressed products** and unlocked **€20M+ in annualised revenue**.
- Ran EU-wide A/B tests over eight-digit weekly shipment volumes — **apparel delivery 30% faster** and warehouse coverage doubled in five markets.

€50M+ annualised impact · **80K** delayed parcels prioritised before Christmas · **1,000+** hours a year removed by automation

EDUCATION

London Business School

Sep 2016 — Jul 2017

Masters in Management

London

- Consulted on strategic growth for **Change Please**, a UK social enterprise putting people out of homelessness through coffee.
- Nominated for the **Outstanding Teamwork Award** across the cohort.

University of Oxford

Oct 2011 — Jun 2015

BA Archaeology & Anthropology (2:1) · MSc Cognitive & Evolutionary Anthropology

Oxford

- **First-class dissertation** — ethnographic research on migrant identity and how technology is used abroad and at home.
- MSc thesis: a quantitative study of social status and financial risk aversion, built on research design and statistical analysis.

International School of Manila

Aug 2009 — Jun 2011

International Baccalaureate

Manila
